

Hospital medication trolley h44810

Medication distribution trolley ideal for clinics and hospital facilities. Equipped with 4 shelves and 16 compartments measuring 230x170x70 mm. and 2 drawers

The trolley for transporting and handling medications is ideal for use in clinics, hospitals and medical facilities of various kinds.

The product is perfect for hospital staff who need to administer various medications to different patients.

Thanks to the **4 shelves** with **16 compartments** divided with **transparent dividers**, it will be possible to contain different types of medications for each patient in a single trolley.

The presence of **two drawers** makes the trolley even more functional for containing pharmaceutical material.

The **base** and the **surface of the trolley** are in **ABS** while the remaining **structure** is in **aluminum** and **steel with epoxy coating**.

Movement of the trolley is carried out via a **lateral push handle** and **100 mm diameter wheels**.

The **lock with key** will allow you to keep the contents of the trolley safe.

The product is available with drawers and inserts of **different colors**.
