

## Hospital polyethylene dressing trolley h666\_21

Polyethylene dressing trolley with 2 drawers and 2 trays. Dimensions: W.420 x D.490 x H.810 mm.

**The hospital dressing trolley** is an essential piece of furniture in emergency rooms and healthcare facilities. Thanks to this type of product, it is indeed possible to perform dressings and minor sutures while always having the necessary material available. **The trolley consists of a sturdy polyethylene structure and features 1 drawer for small equipment with a load capacity of 3 kg and 1 drawer with a load capacity of 7 kg**, suitable for containing bulkier materials. **The product is also equipped with 2 trays on which bottles and additional equipment can be placed. Thanks to the 4 wheels**, 2 of which have brakes, it is possible to move the trolley from one room to another, always having all the necessary material available to best perform the work.

Upon customer request, it is possible to receive the trolley in different colors.
