

## Hospital Screen 3 sections h13\_73

Hospital screen in aluminum with 3 folding sections, washable fireproof plastic curtains, mounted on wheels. Italian production.

The hospital screen is a functional solution for the creation of temporary privacy areas in healthcare facilities. Designed for clinics, hospitals, and medical offices, it allows for isolating patients during visits, diagnostic procedures, or hospitalization, while maintaining flexibility in spaces and ease of movement.

The **tubular aluminum structure** guarantees lightness and structural resistance, while the **3 sections with white folding plastic curtains** are **washable and flame-resistant**, an essential requirement in healthcare environments. The **Ø 50 mm wheels** allow for easy movements without the need for disassembly.

## Technical features

- Structure: aluminum tubular
- Sections: 3 (every 50 cm)
- Dimensions: 50 cm (width) × 170 cm (height)
- Curtains: washable, fireproof plastic
- Color: white
- Wheels: Ø 50 mm
- Weight: 5 kg
- Production: Italian
