

Hospital screen 4 panels h582_43

Hospital screen in anodized aluminum, 4 sections with flame-retardant plastic curtains, Ø 50 mm wheels with brake, 212.5x170 cm.

The hospital screen is a solution designed to **guarantee patient privacy** during medical examinations and clinical procedures. Made of **anodized aluminum**, it offers a lightweight yet robust structure, ideal for healthcare environments where mobility and hygiene are priorities. The **washable plastic curtains** allow for easy sanitization, while the **flame-retardant** certification meets hospital fire safety requirements.

Practicality of use is guaranteed by **Ø 50 mm wheels**, with the central ones equipped with brakes, allowing for stable and precise positioning without risks of involuntary movement during use.

Technical characteristics

- **Structure:** anodized aluminum
- **Number of panels:** 4 sections
- **Curtains:** washable flame-retardant plastic
- **Wheels:** Ø 50 mm, with brake on central ones
- **Overall dimensions:** W. 212.5 x H. 170 cm
- **Single panel dimensions:** W. 55 x H. 170 cm
- **Weight:** 9.2 kg
