

Hospital screen h930_16

Three-section hospital screen in metal and PVC, 282x48x165 cm, sanitary and easy to sanitize for clinics and medical offices.

Modular screen designed specifically for healthcare environments such as clinics, medical offices, and hospitals. The robust metal structure is paired with panels in **resistant PVC**, a material that guarantees hygiene, ease of sanitization, and durability over time. The product meets the need to ensure **patient privacy** while maintaining high standards of safety and cleanliness essential in medical contexts.

Technical features

- Three-section configuration
- PVC panels
- Length: 282 cm
- Depth: 48 cm
- Height: 165 cm
- Metal structure
