

Hospital sink h1013_01

1-station surgical sink in AISI 304 stainless steel, soundproofed and anti-drumming. Dimensions: W 70 x D 55 x H 97.2 cm.

The **H1013_01 hospital sink** is a **1-station** model, designed for healthcare environments where high hygienic standards are required. It is **made entirely of AISI 304 stainless steel**, a material resistant to corrosion, durable over time and compliant with hygiene and health regulations for medical use.

The **tank is soundproofed** and features **anti-splash shaping**, designed to contain splashes and make usage more functional during pre-operative washing operations. The **rounded edges** facilitate daily cleaning and reduce the accumulation of dirt or bacteria. The sink is prepared for **wall** mounting on a load-bearing wall. In the presence of plasterboard walls and/or similar, please request the specific fixing kit which will be provided separately. Included: **drain plug, wall mounting bracket** and **flexible connector** for the **water connection**.

An **anti-drumming** application is present, useful for reducing the noise caused by water flow, improving acoustic comfort in delicate environments such as surgical rooms.

The product dimensions are 700 x 550 x 972 mm (W x D x h) useful and convenient.

Request a quote now for the **H1013_01 surgical sink**. Advantageous conditions available for multiple supplies.
