

Hospital trolley with 3 drawers h448_105

Multifunction hospital trolley with 3 self-closing drawers. Dimensions: W.65 x D.56 x H.94 cm. Available in different colours.

The hospital equipment trolley is an essential element for healthcare professionals who need mobile support for electromedical devices. **The trolley is therefore ideal for emergency rooms, clinics and hospitals in general. The product features a steel and aluminium structure with epoxy coating and an ABS top surface with a flange on three sides on which ultrasound machines and other devices can be placed.** Thanks to the **three self-closing drawers** with telescopic slides, it is also possible to store dressing instruments.

The multifunction hospital trolley can be transported with extreme ease thanks to the Ø100 mm swivel wheels and the side handle.

It is possible to receive the product by choosing from different finishes for the drawers and side details.
