

## Hot water dispenser h227\_09

Thermal hot water dispenser. Material: stainless steel. Electric heating. Capacity: 4 lt.

**Hot water dispenser**, ideal for use by hotel, bar, and restaurant staff. Also perfect for display on buffets and therefore used by customers to independently prepare hot drinks. Formed by a double wall, internal and external, both made of **stainless steel**. Heating occurs through **connection to the electrical grid**. **Handy, stackable and easy to transport** thanks to the presence of a handle on the front and a well-fixed lid with a recessed handle on top. Equipped with a **drip-free tap** for easy dispensing of the contents. If combined with specific filters, it can be used both as a coffee machine and for tea.

### Technical features:

- Dimensions: Ø23.7 x H34.6 cm
- Material: stainless steel
- Capacity: 4 lt
- Temperature maintenance: approx. 84-86°C
- Electrical connection: 1N ~ 220-240V / 50-60 Cy / 165W
