

Hotel iron with retractable cord h16_30

Steam iron for hotel rooms equipped with a retractable power cord. Potenza: 2200 W. Tank capacity: 250 ml.

The **hotel iron h16_30** represents a cutting-edge solution for in-room laundry management, combining a high power of **2200 W** with unprecedented practicality. The distinguishing element of this model is the **185 cm retractable power cord**, which allows the appliance to be stored neatly and immediately, solving the operational problem of bulky wires in wardrobes or drawers. The **non-stick ceramic soleplate** ensures even heat distribution and superior glide on all types of fabric, while the anti-drip function protects guests' garments from unwanted water stains. Designed for maximum safety, it integrates an **automatic shut-off** system that activates after only 30 seconds of inactivity in a horizontal position, protecting the safety of the accommodation facility.
