

Hotel ironing board with iron h164_73

Professional ironing station for hotels with 1200W steam iron and wardrobe hook. Anti-theft system, 3-way shut-off and fireproof aluminum cover.

The **hotel room ironing board** is a fundamental element for all hospitality facilities wishing to offer high-profile hospitality and maximum comfort to their guests. Designed to be **easy and intuitive**, this system allows professional ironing directly in the room, brilliantly solving space issues thanks to the **integrated hook**: the entire station can be stored in a hanging position inside the wardrobe.

Safety is at the heart of this product, which includes a **1200W steam iron** equipped with a non-stick stainless steel soleplate and an advanced **3-way automatic shut-off system**. Operational stability is guaranteed by strong black powder-coated legs and frame with non-slip feet, while the **fireproof aluminum board cover** with felt backing ensures excellent results while protecting the structure. The easy opening mechanism and adjustable height complete a technical accessory designed for maximum ergonomics and management security, also thanks to the integrated **anti-theft box**.
