

Hotel minibar 25 l with glass door h3416

25 l glass door minibar Made in Italy, silent absorption system and LPC technology. Compact design W420xD375xH435 mm with transparent glass door.

The **Hotel minibar 25 l h3416** is a compact cooling unit with a high visual impact, designed for hospitality facilities focusing on visual merchandising in small spaces. Thanks to its fully transparent **glass door**, this minibar gives the room a sophisticated and modern look, actively encouraging guest consumption through immediate view of the contents. Entirely Made in **Italy**, the device solves the problem of ambient noise thanks to the new generation **absorption technology**, which ensures maximum silence. Energy efficiency is guaranteed by the innovative **LPC (Low Power Consumption)** system, which uses an electronic probe to optimize internal temperature, thus combining excellent cooling capacity with extremely low consumption.

Technical features

- **Production:** Made in Italy
