

Hotel minibar 33 L with wooden door h3413

33 L minibar with wooden door, silent absorption system and LPC technology. Made in Italy, ideal for coordinated built-in hotel use.

The **Hotel minibar 33 L with wooden door h3413** is the technical solution of excellence for hospitality facilities aiming for total aesthetic integration. Produced entirely in **Italy**, this room minibar is specifically designed for **built-in solutions**, offering the possibility of being installed with or without a sliding hinge to allow the simultaneous opening of the furniture door and the refrigerator. The device solves the problem of night-time noise disturbance thanks to a **new generation absorption system**, characterized by absolute silence. Efficiency is guaranteed by the **LPC (Low Power Consumption) electronic system**, developed to optimize cooling functions and significantly lower energy costs, making it an indispensable element for the professional hotel target that does not want to compromise between style and performance.

Technical characteristics
