

Hotel Minibar 33 It Made in Italy h3412

Minibar 33 It h3412 Made in Italy, silent absorption system and LPC technology. Reversible and panelable door, ideal for professional built-in use.

The **Hotel Minibar 33 It Made in Italy h3412** is a high-precision cooling unit designed for concealed or visible integration in hotel room furniture. Thanks to its **panelable door**, this minibar resolves the problem of aesthetic consistency, allowing the fridge front to be coordinated with the different color solutions of existing furniture. The device guarantees **absolute silence** and extremely low energy consumption thanks to the use of the sophisticated **LPC (Low Power Consumption) electronic system**, which optimizes cooling functions through a new generation absorption system. Its elegant line makes it the ideal choice for built-in installations where the front remains visible, ensuring guests an efficient service and undisturbed rest.

Technical characteristics
