

## Hotel pistol hair dryer h164\_87

1600 W pistol hair dryer with ionic technology, 4 temperatures, 2 speeds, low energy consumption. Dimensions: W 13 x D 7 x H 28 cm.

The **h164\_87 hotel pistol hair dryer** represents the cutting edge of technology applied to hospitality, combining ultra-fast performance and environmental sustainability. Thanks to the powerful high-speed **100,000 RPM** motor, this device is capable of drying hair 48% faster than traditional models, drastically reducing waiting times for the guest. The integrated **advanced ionic technology** neutralizes static electricity, leaving the hair shiny and frizz-free. Designed for modern accommodation facilities, the h164\_87 hair dryer solves the problem of high operating costs thanks to a **58% reduced energy consumption**, while offering an intuitive interface via a heat indicator with **multicolor LED** that visually signals the set temperature.

## Technical characteristics

- **Power:** 1600 W with low energy consumption system
- **Motor:** high-speed technology (100,000 RPM)
- **Technology:** ionic for quick and anti-frizz drying
- **Speed settings:** 2 professional settings
- **Temperature settings:** 4 customizable settings
- **User interface:** multicolor LED indicator for thermal status
- **Accessories:** magnetic concentrator for precise styling included
- **Maintenance:** removable magnetic filter for quick cleaning
- **Dimensions:** W 13 x D 7 x H 28 cm
- **Weight:** 0.5 kg (ultra-lightweight and ergonomic design)
- **Cable:** straight, 2.5 meters length with double insulation
- **Organization:** velcro strap included for cable management
- **Color:** professional black
