

Hotel room bin 16 lt h957_12

Metal bin with handle, 16 lt capacity. Dimensions: Ø 25 x h 38 cm. Color: pastel blue.

The **16-liter metal bin h957_12** is the perfect solution for indoor environments such as hotels, B&Bs, offices, and hospitality facilities. The elegant and compact design, combined with the **pastel blue finish with black decorative details**, makes it a practical and refined accessory, capable of adapting to any furnishing style.

Made of high-quality **cold-rolled white sheet metal** (DC01, EN10130 standard), it is a lightweight yet robust product, with a net weight of **1.7 kg**. The integrated handle ensures **optimal handling**, facilitating transport and emptying. The electrostatic **fire-retardant polyester resin** coating, with a uniform thickness of 60 microns, ensures high protection against abrasions, impacts, and daily wear. This treatment, cured at 200°C, gives the bin a **fire rating of A2-s1, d0 and M1**, complying with the main European safety regulations.

Accurate quality tests guarantee product compliance in terms of stability, resistance, and safety, offering a durable and reliable solution. Thanks to the **coloring**, the bin can be adapted to different chromatic and design needs, making it ideal for environments requiring a touch of elegance and practicality.

Choose the **16-liter metal bin h957_12** to combine design and functionality in your spaces. With its elegant style and fire-retardant features, it is perfect for hotels, offices, and professional environments. Don't miss the opportunity to customize it in the color best suited to your needs! Order now or request a quote for large quantities to optimize your facility with style and safety.

No, it is designed for indoor use in dry environments such as hotel rooms and offices.

3. Is the product fireproof?

Sì, the fire-retardant coating gives it a fire rating of A2-s1, d0.

4. Is it available in other colors?

Yes, in addition to pastel blue, other colors are available upon request and subject to a quote.

5. Is the bin impact resistant?

Yes, thanks to the cold-rolled sheet metal and anti-abrasion coating.

Mini buying guide:

When choosing a bin for your indoor spaces, it is important to consider several factors that will help you find the model best suited to your needs. The **16-liter metal bin h957_12** is designed for those looking for a product that combines practicality, style, and high safety standards, making it ideal for professional environments such as hotels, B&Bs, and offices.

First of all, the **16-liter capacity** makes it perfect for medium-sized spaces, such as hotel rooms or common areas with moderate traffic, ensuring daily use without the need for frequent emptying. This makes it a practical choice for those who want to optimize waste management without sacrificing aesthetics.

Another important aspect is the **elegant and versatile design**, with a **pastel blue** finish and black decorative details. This bin is not only functional but also a furnishing accessory that integrates harmoniously into modern or classic environments.

Furthermore, the possibility of choosing from a range of customized colors allows it to be adapted to the aesthetic needs of each space, creating a coordinated and professional look.

The **sturdiness and quality of materials** are a strength of this model. Made of cold-rolled sheet metal, it is designed to last over time. The fire-retardant polyester resin coating, complying with European standards, ensures high resistance to scratches, bumps, and abrasions. This makes it a safe and durable choice, especially in environments requiring compliance with fire safety regulations.

No less important is its **practicality of use**. Thanks to the integrated handle, the bin is easy to transport and empty, an aspect particularly useful in professional contexts such as hotels or offices, where speed and efficiency are essential. Furthermore, the decorative base not only adds an aesthetic touch but also protects the surfaces on which it is placed, avoiding scratches or damage to delicate floors.

Finally, this bin has been designed with attention to **maintenance and cleaning**. The smooth and uniform surface, thanks to the electrostatic coating, allows for quick and easy cleaning, ensuring high hygiene standards. This makes it particularly suitable for spaces such as hotel rooms and offices, where cleanliness is a priority.

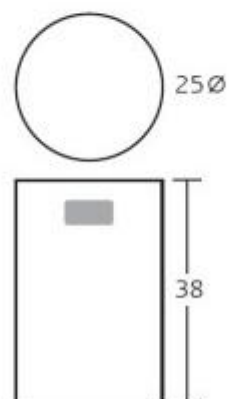

By choosing the **16-liter metal bin h957_12**, you will have a product that combines **functionality, safety, and style**, ideal for making your spaces tidier and more welcoming. If you want a product that lasts over time and integrates perfectly with your decor, this model is the right choice for you!
