

Hotel room bin in stainless steel h957_16

Perforated stainless steel hotel bin. Capacity: 14 L. Dimensions: approx. Ø 25 x h 38 cm. Black decorative finish at the base. The **hotel room bin h957_16** is an elegant and functional accessory, designed to stylishly complete the interiors of hotels, B&Bs, offices, and professional spaces. Made of **polished AISI 430 stainless steel**, it stands out for its durability and refined design. The perforated pattern adds a touch of modernity, while the **black decorative finish at the base** completes the aesthetic, protecting the supporting surfaces.

With a **14-liter capacity**, it is ideal for hotel rooms and spaces with moderate daily use. The stainless steel structure ensures long life, resistance to impact, wear, and corrosion, ensuring that the bin remains in perfect condition over time.

The bin has undergone **rigorous quality tests**, complying with current regulations in terms of safety, stability, and fire resistance. This makes it a safe and reliable choice for facilities requiring certified products. Its net weight of **1.4 kg** makes it stable yet easy to move and handle.

Thanks to its **versatile design**, the **hotel room waste bin h947_16** integrates harmoniously into any type of furniture, from classic to more contemporary contexts, adding a touch of elegance and practicality.

Complete your environments with the **stainless steel bin h957_16**, a perfect mix of aesthetics and functionality. Ideal for hotels and professional spaces, this product combines strength and sophisticated design. Order today or request a quote for custom supplies and larger quantities!
