## Hotel room hair dryer h16448

Professional 1200W hair dryer for hotels, wall or drawer mountable. Ergonomic design, double insulation and anti-theft system.

The **h16448 pistol-grip hair dryer** is a versatile solution designed specifically for the hospitality sector, where space optimization and guest safety are operational priorities. This model stands out for its **dual installation mode**: it can be fixed stably to the wall or stored inside a drawer, eliminating visual clutter on the vanity top. Thanks to its **1200W** power and two heat settings, it ensures efficient and comfortable drying for the end customer, while solving the problem of managing small appliances in high-turnover contexts. The **double-insulated** body and overheating protection ensure the highest safety standards required in professional facilities.
