

Hotel room hair dryer h43819

1600W wall-mounted hair dryer in white ABS with chrome inserts. Equipped with a safety push button and spiral cable, ideal for the hospitality sector.

The **h43819 hair dryer** is a professional hot air solution designed to elevate the standard of comfort in hospitality facilities. Featuring a **white ABS casing with elegant chrome inserts**, this model combines refined aesthetics with maximum operational safety. The integrated **wall-mounting system** prevents theft and loss, ensuring constant order in the hotel's bathroom. Airflow management is extremely versatile, offering **two speeds and two temperatures** for delivering hot or cold air, thus adapting to the different needs of guests. To prevent involuntary activation and energy waste, the appliance requires permanent pressure on the button located on the back of the handle during use.
