

Hotel room kettle h41438

Compact professional 0.8 L kettle in white. Power up to 1190 W, lid with safety lock and automatic shut-off. Ideal for small spaces in hotels and B&B.

Short Description (preview) Compact professional 0.8 L kettle in white. Power up to 1190 W, lid with safety lock and automatic shut-off. Ideal for small spaces in hotels and B&B. Description (HTML) + Technical features (HTML)

The **0.8-liter professional kettle** is the ideal solution for accommodation facilities wishing to offer a functional and discreet courtesy service. Thanks to its essential design in white, it integrates perfectly into any type of hotel room, resort, or B&B. Designed to be **extremely easy to use and clean**, this kettle represents the right compromise between capacity and size, optimizing space on welcome trays or minibar furniture.

Guest safety is guaranteed by the **automatic shut-off** system and integrated thermal protection. The hinged lid is equipped with a safety lock with button operation, preventing accidental opening during use. The "on-off" power light allows immediate monitoring of the operating status, while the interior of the kettle has been designed to facilitate periodic descaling operations by housekeeping staff.
