

Hotel room kettle with tray h 220_327

Professional hospitality set for hotels consisting of a modular tray and a 0.8-liter cordless kettle. Made of **gloss black plastic**, 1.2 kW power, and boil-dry safety system. Includes compartments for infusions and a drip tray. Dimensions: 46.5 x 22.5 cm.

The **hotel room tray set with kettle** is a solution with a modern and elegant design, conceived for accommodation facilities wishing to offer their guests a superior relaxation experience. Featuring a refined **gloss black plastic** finish, this kit integrates harmoniously into any type of furniture, from hotel rooms to conference rooms, making it perfect for pleasant afternoon breaks with tea, herbal teas, or instant coffee.

The set is extremely functional: the tray has **three integrated compartments** to organize sugar bags, infusions, and spoons, keeping everything needed within reach. The 0.8-liter kettle, powerful and efficient (1.2 kW), is equipped with a 360° wireless connection on the base and a practical **drip tray** to collect any drops. Safety is guaranteed by **automatic shut-off** systems upon reaching 100°C and boil-dry protection, while the removable limescale filter ensures always pure drinks.
