

Hotel room safe h12835

Compact 8.2-liter electronic safe with automatic motorized opening and laser-cut door. Equipped with a color LED display, ADA keypad and internal light. Dimensions: H 165 x 280 x 235 mm.

The **professional electronic safe** with a capacity of 8.2 liters is the ideal solution for hotel rooms that require a combination of advanced technology and space-saving design. Thanks to the **laser-cut door** with millimetric tolerances and the robust locking mechanism with **two 18 mm steel bolts**, this model solves the security problem for small valuables such as jewelry, credit cards, and compact cameras.

The opening system is fully **motorized and automatic**, offering guests a smooth and modern user experience. The interface is designed for international accessibility, with a **color LED display** in English and a rubber keypad compliant with **ADA standards** (Americans with Disabilities Act). Internal visibility is guaranteed by an integrated LED light, which facilitates the retrieval of objects even in poorly lit environments, such as the inside of a wardrobe.
