

## Hotel room safe h12838

Professional electronic safe "Laptop 17" format with automatic motorized opening. Extra-large capacity of 31.5 liters, internal LED light and double security (Master code/key). Dimensions: 390 x 470 x H 200 mm.

The **professional 31.5-liter electronic safe** represents the most spacious and high-performance security solution for hospitality facilities hosting business or international guests. Thanks to its generous depth of 47 cm, this model definitively solves the problem of housing **laptops up to 17 inches**, tablets, DSLR cameras, and document bags, guaranteeing the guest a large and secure storage space.

The device is characterized by a **motorized locking system with automatic opening**: when the 4-digit code is entered, the two robust **19 mm steel bolts** retract and the door opens autonomously. The user interface consists of a clear LED display and an ergonomic rubber keypad. The **internal LED light** ensures perfect visibility of the entire compartment, eliminating the risk of forgetting small precious objects or power cables at the bottom of the safe at check-out.

## Technical characteristics
