

Hotel room safe h31_243

Hotel room safe with top opening and motorized digital lock. Dimensions: W 40 x D 35 x H 13 cm.

The **hotel room safe** with top opening is the perfect solution for those wishing to optimize space inside **drawers, desks, or wardrobes**, offering guests a secure place for their belongings. This model stands out for its horizontal configuration that allows immediate and convenient access to the contents. Equipped with a **motorized digital lock**, the safe guarantees a high standard of control thanks to the possibility of setting 6 different master codes and the audit trail function, which allows you to consult the **history of the last 100 operations** directly on the integrated display. The structure, finished in an elegant matte black, includes a mat on the base to protect stored items.
