

## Hotel room safe h31\_317

18 L hotel room safe with LED light. Dimensions: W 35 x D 25 x H 26 cm.

The **hotel room safe h31\_317** is a 18-liter professional solution that combines advanced security and maximum functionality for the guest. Designed for intuitive use, it is equipped with a **motorized digital lock** and a numeric keypad for code setting. The integrated **internal LED light** facilitates the retrieval of objects in any lighting condition. This model offers total control to hotel management thanks to the possibility of viewing the **audit trail of the last 100 operations**, which can be consulted both on the display and by downloading data through the dedicated **USB port**. For maximum peace of mind, the system includes a mechanical master override key for emergency unlocking if needed.
