Hotel room safe h464_273

Compact electronic steel safe for hotels and B&B. Dual fixing mode (wall/floor), customizable code from 3 to 8 digits and emergency keys included. Dimensions: 31 x 20 x H 20 cm.

The **professional steel safe** represents an essential and versatile security solution for every type of accommodation facility, from Bed & Breakfasts to medium-sized hotels. Designed to store guests' valuables (jewelry, documents, cash) with maximum reliability, it stands out for its **ease of configuration** and a design adaptable to any room furnishing style.

The locking system is entrusted to an extremely flexible **digital electronic combination**, which allows the setting of user and master codes from 3 to 8 digits. The control panel is equipped with **three LED lights (green, red, yellow)** that provide immediate feedback on the operation status (confirmation, error, or low battery). The safe is designed for quick and secure installation: thanks to the pre-drilled holes on the back and base, it can be **anchored to both the wall and the floor**, ensuring effective passive protection against removal attempts.
