

Hotel room waste bin 110 lt h957_42

Metal recycling waste bin with 2 removable buckets. Capacity: 110 liters. Dimensions: Ø 46 x H 66.5 cm.

The **H957_42 hotel room recycling waste bin** is an elegant, functional and safe solution for optimizing waste management within accommodation facilities. Ideal for hotel rooms, executive offices and interior spaces, it is designed to ensure **order, cleanliness and respect for the environment** with a discreet and modern style.

Made of **cold-rolled white sheet metal** (DC01 quality – EN10130 standard), the bin features a **sturdy structure** powder-coated with **fire-retardant polyester** resin, certified **A2-s1, d0** according to the European standard EN 13501-1 and **M1** according to the UNE 23727 standard. This makes it suitable also for use in environments with fire safety constraints.

The model is equipped with **two removable internal buckets**, one yellow and one blue, which facilitate **waste sorting**. Each container is easily removable to simplify emptying and cleaning operations, improving staff operational efficiency.

The **base with black PVC decorative element** and metal insert adds a touch of refinement, perfect for blending harmoniously with the room decor. With a **total capacity of 110 liters** and a **net weight of 11.4 kg**, it represents a perfect balance between **compact design and capacity**.

Subjected to quality tests on **resistance, stability and safety**, the H957_42 bin is designed to last over time and maintain its aesthetic and functional characteristics intact even in the event of intensive use.

Make your facility more sustainable and functional with the **H957_42 bin**. Request a personalized quote for custom supplies today.
