## Hotel safe h718\_47

Professional high-thickness armored safe (Door 10 mm, Structure 6 mm) in elegant white finish. Equipped with anti-tear hinge, electronic lock, and internal shelf. Dimensions: 38 x 30 x H 30 cm. Weight: 37 kg.

The **professional armored safe** 38 cm in white finish is the maximum security solution for hotels, executive offices, and prestigious residences. Unlike standard room models, this unit solves the problem of mechanical vulnerability thanks to **high-thickness steel** armoring: 10 mm for the door and 6 mm for the entire structure. The design is enhanced by a **shaped anti-tear profile hinge**, designed to resist burglary and prying attempts with extreme effectiveness.

The device combines high-level passive protection with the practicality of the **digital electronic lock**, offering a generous internal volume of 26 liters. Space organization is optimized by the presence of an **internal shelf**, ideal for separating documents, electronic devices, and valuables. With a structural weight of 37 kg, this safe stands as a true bulwark of security, while maintaining a clean and modern aesthetic thanks to the white paint that integrates perfectly into contemporary furnishings.

## Technical characteristics
