

Hotel safe with motorized digital lock h31127

Hotel room safe with internal LED light. History of the last 100 operations. External dimensions: W 36 x D 41 x H 19 cm.

The **hotel room safe** is a security device with a simple and functional design, ideal for raising the service level in holiday homes, hotels, and B&Bs. Featuring a robust **front laser-cut**, this safe offers a **motorized digital lock** with an **automatic door opening system**, ensuring a smooth and technological user experience for the guest. Management is simplified for the facility thanks to 6 different master codes with non-volatile memory and the **integrated USB port**, which allows the downloading and viewing of the history of the last 100 operations via a CEU unit.

Technical features

- **Construction:** Front laser-cut.
- **Opening:** Automatic door with motorized digital lock.
- **Capacity:** 19 liters.
- **External Dimensions:** W 360 x D 410 x H 190 mm.
- **Internal Dimensions:** W 357 x D 360 x H 170 mm.
- **Door Dimensions:** Approximately 140 x 290 mm.
- **Weight:** Net 10.2 Kg / Gross 10.6 Kg.
- **Security:** 6 master codes, non-volatile memory, emergency override key.
- **Extra functions:** Internal LED light, display, USB port for operation history.
- **Installation:** Rear and bottom anchoring holes.
- **Color:** Anthracite grey.
