Hotel safe with top-opening for PC h7649

Free-standing safe with top-opening capable of holding a 15" notebook. Motorized lock and LED keyboard lighting upon pressing any key.

The **h7649 free-standing safe** represents an innovative and functional security solution for the hotel sector, specifically designed to accommodate **notebooks up to 15 inches**. Thanks to the **top-opening** system, this model allows for immediate visibility and easy access to the contents, making it ideal for installation inside drawers or low furniture compartments. Management is entrusted to a highly reliable **motorized lock**, supported by an LED keyboard that lights up when keys are pressed and a high-contrast blue display, solving operational difficulties in low-light contexts. The system guarantees maximum flexibility for the hotelier through the Master code and centralized emergency key.
