

Hotel safe with USB ports h76_91

Furniture safe with 220 V universal internal socket and 2 USB ports.

The **h76_91 hotel safe** represents the technological evolution of in-room security, integrating a protected charging station for guests' devices. This model solves the need of modern travelers to safely recharge their work tools: it is equipped with a **220V universal internal socket** for laptops and **two USB ports** dedicated to smartphones and tablets. The structure is extremely robust, with a 5 mm door and **motorized lock**, completed by a blue LED backlit keyboard and automatic internal lighting. For professional management, the system offers total control via Master code, emergency key, and the display of the last 100 events directly on the screen.

Technical features

- **External dimensions:** 405 x 410 x 200 mm (WxDxH)
