

Hydraulic veterinary operating table h797_11

Hydraulic lift operating table for animals. Capacity: 160 kg. Dimensions: W. 1450 x D. 560 x h. 750 - 1080 mm.

Operating tables for veterinary practices represent an indispensable piece of equipment for the activity of veterinary facilities and clinics. This model is made of **stainless steel**, a material that guarantees **sturdiness, resistance and hygiene**. A **hydraulic lifting system** allows the **height and tilt of the table** to be adjusted quickly and precisely. The **V-top** guarantees **comfort and stability** during surgery and diagnostic-therapeutic operations on animals.

Technical characteristics:

- Dimensions: W. 1450 x D. 560 x h. min 750 max 980 mm
- Material: stainless steel
- Capacity: 160 kg
- Hydraulic lift
- Table height and tilt adjustable via hydraulic system
- V-top
- Resistance, sturdiness and safety
