

Hygienic stainless steel hand wash basin h956_13

AISI 304 stainless steel hand wash basin with knee control, cabinet with hinged door, telescopic feet and complete accessories. Dimensions: W 50 x D 50 x H 90 cm.

The **h956_13 hygienic stainless steel hand wash basin with integrated cabinet** is designed to meet the needs for hygiene and practicality in professional kitchens, such as those in restaurants, canteens, and food laboratories. Built entirely of **AISI 304 stainless steel**, this hand wash basin offers corrosion resistance, durability, and ease of cleaning, making it ideal for environments with high hygiene standards and intensive use. Stainless steel ensures high protection against humidity and chemical agents, maintaining a professional appearance even after years of use.

One of the most appreciated features of this hand wash basin is the **knee control**, which allows for starting the water flow without using hands, preventing cross-contamination and improving hygienic safety. The **spout**, the **drain plug**, and the **PVC siphon** complete the set, ensuring immediate installation and readiness for use.

The hand wash basin is mounted on a **cabinet with a hinged door**, built with removable hinges that facilitate opening and maintenance. The **open back** of the cabinet allows easy access to plumbing connections, simplifying installation and maintenance operations. The **stainless steel telescopic feet**, recessed at the back to allow for floor coving, offer stability and the possibility to adjust the height to adapt to irregular floors, ensuring a workstation that is always balanced and safe.

Get the maximum practicality and hygiene with the **h956_13 stainless steel hand wash basin on cabinet** for your professional kitchen. Order now and improve the efficiency of your workspace!
