

Ice cream cone display holder 24 holes h412_38

Countertop transparent plexiglass cone display holder with 24 holes of 2 cm. Dimensions: 30 x 20 cm. Ideal for ice cream parlors and catering.

The **countertop cone display holder** is a professional support in **transparent plexiglass** designed for the organization and display of mini cones and wafers. Thanks to its horizontal structure, the product solves the problem of managing large quantities of pieces in small spaces, ensuring order and immediate visibility of the content. It is the ideal accessory for ice cream parlors, pastry shops, and catering services that need a hygienic, resistant solution with a neutral design that adapts to any type of sales counter.
