- **Allows:** organizing cones of different sizes.
- **Optimizes:** workspace on the counter.
- **Access:** quick access to cones for faster service.
- **Structure:** stable and safe.
- **Material:** resistant and easy to clean.

FAQ:

1. **How many cones can each tube hold?**
It depends on the height of the cones, but each tube can hold several stacked cones.
2. **Can it hold cones of other sizes besides 6.5 cm and 7.5 cm?**
It is designed for cones of these sizes.
3. **Is the material suitable for food contact?**
Yes, it is made with materials compliant with hygiene standards for the food sector.
4. **Is it easy to clean?**
Yes, the smooth surface and design facilitate daily cleaning.
5. **Does the white color get dirty easily?**
Like any light surface, it requires regular cleaning, but it is made with materials that are easily cleaned.

Mini buying guide:

To choose the best **cone holder display**, it is important to consider some fundamental aspects.

First of all, the **number of tubes** and their diameter: a model with tubes of different sizes, such as the H412_25, allows for more cone variants, making the service more versatile.

Stability is another key factor: a solid structure prevents accidental tipping. Finally, it is essential that the material is **resistant, easy to clean and compliant with hygiene regulations**, ensuring safe and professional use.
