

Inclusive bench for parks h140_378

Inclusive bench for urban furniture in galvanized steel with a central section for people with disabilities. Dimensions: L.200 x D.61 x H.77 cm.

The inclusive bench for public spaces represents an urban furniture element designed to allow people with disabilities to use public seating without having to leave their wheelchair. The bench features a **galvanized steel structure** consisting of **two galvanized steel sheet supports equipped with plates at the base**. The seat and backrest shell is made of galvanized steel profiles with rounded shapes. The seat consists of a **central part designed for use by people with disabilities with only a backrest**, and two parts at the sides equipped with seat and backrest.

The bench is supplied in the following finishes: **"bright aluminum"** for the supports and **"wine red RAL 3005"** for the seat and backrest shell.

Upon customer request and subject to a quote, it is possible to receive the product in different finishes.

Technical features:
