

Inclusive multi-play composition for playground h575_158

Inclusive trail with musical theme, slide and interactive games. Made of aluminum and HDPE. Dimensions: 485 x 610 x H 247 cm.

The **h575_158 inclusive trail** is an accessible play structure designed to offer a stimulating and inclusive play experience for children from **2 to 12 years old**. The musical theme is emphasized by **HDPE decorative panels** with musical notes, while the **powder-coated perforated sheet metal roof** and **games like tambourines, gongs** and a **membrane** for verbal communication add an interactive and fun touch. The trail includes two modules connected by a **Tibetan bridge**: one with **musical games** and the other with a **tower equipped** with a **rotational polyethylene slide** with a **height of 90 cm**. The structure is built with 90x90 mm **aluminum posts** and **embossed sheet metal** platforms to ensure a non-slip surface. The **powder-coated steel handrails** and wave-shaped HDPE panels complete the safe and resistant design.

Buy the **h575_158 inclusive trail** to offer an educational and fun play experience for all children. Request a personalized quote today.

Technical features:
