

Inclusive picnic table and benches set h1003_12

Inclusive picnic set for public, school, and recreational spaces. Galvanized steel structure and WPC slats. It can accommodate up to ten people. Total dimensions: W. 2200 x D. 1850 x h. 740 mm.

The **h1003_12 picnic table and benches set** has been designed with **structural robustness** and **inclusivity** in mind, ideal for public areas, schools, and recreational spaces. This compact element offers **comfortable seating** and long-lasting durability, perfect for **intensive use in outdoor environments**.

The **structure** is made of **tubular galvanized and thermosetting polyester powder-coated steel**, available in various colors, a high-quality material that effectively protects against wear and atmospheric agents, ensuring long life and reliability. The **seats** and the **top** are composed of **WPC slats**, a composite wood that combines a natural aesthetic with high resistance and **zero maintenance**, ideal for outdoor use.

The **tabletop**, extended on both short sides, allows for use by up to **ten people**, with sufficient space for **wheelchair users**, thus ensuring maximum inclusivity and functionality.

Installation is simple and secure thanks to the **provision for floor fixing with dowels (not supplied)**, which makes the module stable in any context, even in busy public environments.

This **practical, solid, and inclusive solution** is perfect for public parks, refreshment areas, school courtyards, or any area equipped for outdoor relaxation.

Choose the h1003_12 picnic table and benches set to create a functional, resistant, and inclusive outdoor environment, ideal for any public or recreational space!
