

Inclusive playground course h575_155

Inclusive course in Nordic pine wood and HDPE with slides, educational panels, and interactive games. Dimensions: 847 x 881 x H 360 cm.

The **inclusive course h575_155** is a play area designed to promote the **fun** of all **children, including** those with **disabilities**. Equipped with **educational panels**, the course **stimulates learning** while the little ones have fun. The structure is composed of **posts** in **Nordic pine wood** pressure-treated in an autoclave, with **safe passages** and weather-resistant **HDPE railings**. Inclusivity is guaranteed by a **wide ramp** and a **Tibetan bridge**, which connect the **two main towers** with platforms at different heights: one at 90 cm and the other at 150 cm. The straight slides in **polyethylene** and the **crawl tunnel** complete the play experience. Everything is enriched by **colorful decorations** and **durable materials** like **PVC** and **HDPE** for long-term durability.

Discover the **inclusive course h575_155** and give children an accessible and safe play experience. Request a customized quote today!

Technical characteristics:

- **Slides:** Polyethylene, heights 90 cm and 150 cm
- **Educational panels** in HDPE
- **Dimensions:** 847 x 881 x H 360 cm
- **Safety area:** 1200 x 1200 cm
- **Maximum fall height:** 150 cm
- **Recommended impact-absorbing surface:** 106 sqm
- **Maximum number of users:** 3+
- **Age of use:** 3 - 12 years

User benefits:

- Inclusivity for children with and without disabilities
- Weather-resistant materials
- Educational play thanks to interactive panels
- Guaranteed safety with anti-slip elements and protections

FAQ:

1. **Is the course suitable for children with disabilities?**
Yes, the course is designed to be accessible to all children, promoting inclusivity and fun.
2. **What kind of maintenance does it require?**
It requires minimal periodic maintenance, such as checking the wooden structure and cleaning the HDPE and polyethylene panels.
3. **Which materials are used?**
Treated Nordic pine wood, HDPE, and polyethylene, all resistant and durable materials.
4. **How many children can play at the same time?**
The structure can accommodate up to 3+ children at the same time.

Mini buying guide:

When choosing an inclusive playground composition, consider the **resistance** of the **materials** and the safety of the structure. The **inclusive course h575_155** offers an excellent balance between inclusivity, fun, and longevity, thanks to high-quality materials like treated wood and polyethylene. Make sure to install it on an adequate impact-absorbing surface to ensure maximum safety.
