

Inclusive spring peacock h575_59

Inclusive peacock-shaped spring rider made of HDPE and galvanized steel. Dimensions 99x99x99 cm. Equipped with a backrest for optimal postural support.

The peacock-shaped spring rider is designed to enrich play areas with an element that combines figurative aesthetics and inclusive functionality. The particular shape of the seat, complete with a **supporting backrest**, allows the use of the equipment even by children with different motor abilities, ensuring stability and safety during rocking. The structure effectively resists atmospheric agents and intensive use thanks to the use of high-density technical materials and surface protective treatments.

Technical features

- **Body material:** HDPE (high density polyethylene) panels of various thicknesses
- **Construction details:** DIBOND tail (thickness 3 mm) and colored HDPE heads (thickness 10 mm)
- **Rocking system:** Galvanized and painted steel spring (diameter 200 mm, height 400 mm)
- **Metal components:** Ergonomic galvanized and painted steel handles
- **Overall dimensions:** 99 x 99 x h 99 cm
- **Age range:** 2 - 8 years
- **Safety area:** 399 x 399 cm
- **Maximum fall height:**
- **Required impact-absorbing surface:** 15.9 sqm
- **Capacity:** 1 user
