## Inclusive wooden waste bin in blue and yellow h763\_22

Playful waste bin in pressure-treated wood and polyethylene, 30L. Design with turtle and flower, ideal for playgrounds and schools (dim. 47x36x90 cm).

The **h763\_22 waste bin** is an urban furniture element designed specifically for integration into play areas and school contexts. The structure combines waste management functionality with a creative aesthetic, featuring **polyethylene decorations in the shape of a turtle and a flower**. The product's objective is twofold: to ensure the cleanliness of common spaces and to encourage environmental education for children through a welcoming and recognizable design.

The construction uses **Class IV pressure-treated laminated wood**, a technical solution that ensures the structural integrity of the bin even in outdoor environments subject to high humidity and temperature fluctuations. The polyethylene decorative components are chosen for their high mechanical resistance and ability to maintain color saturation despite direct exposure to UV rays.

## Technical characteristics

- **Dimensions:** 47.2 x 36 x 89.8 cm
- **Volumetric capacity:** 30 liters
- **Weight:** 15 kg
- **Structure material:** Class IV pressure-treated laminated wood
- **Decoration material:** UV-resistant high-density polyethylene
- **Environmental resistance:** Anti-rot treatment and impact resistance
- **Regulatory compliance:** Certified according to EN 1176 safety standards
