

Indoor advertising totem h738_198

Indoor advertising totem h738_198 with double silver metal L-base and 19 mm sandwich panel. Extra-large format 100 x 180 cm. Indoor use.

The **indoor advertising totem h738_198** is a large-format free-standing display, designed to offer a communication surface of exceptional visual impact. The structure utilizes a **double metal L-base** with a silver powder-coated finish, which ensures millimetric stability and superior impact resistance. The central body consists of a **white sandwich panel** with a thickness of **19 mm**, chosen for its perfect flatness and ease of handling despite its generous dimensions. With a width of one meter, this totem guarantees a **visible area of 1000x1600 mm**, as the metal base structurally covers the first 250 mm of the bottom of the panel. It represents the definitive solution for indoor displays where the visibility of the message must be absolute.
