

## Indoor recycling bin 10 Lt with lid h424\_131

Modular indoor bin, with soft-closing lid and 10 Lt plastic internal bucket for organic waste. Dimensions: W. 295 x D. 295 x h. 882 mm.

The **h424\_131 indoor recycling bin** is the ideal solution for hygienic and organized waste management. Thanks to its **soft-closing lid**, it reduces noise and helps keep odors inside the container, making it perfect for indoor environments such as kitchens, offices, and canteens.

Access for emptying is facilitated by the **front door with magnetic closure**, while the **10-liter internal plastic bucket for organic waste** ensures quick and easy maintenance. The **structure** is made of **galvanized steel**, with a durable thermosetting polyester resin powder finish, ensuring durability and ease of cleaning.

Thanks to the **modular** design, it is possible to create customized recycling stations by joining multiple containers for waste differentiation. The **adjustable feet** at the base allow for stable positioning on any surface. Waste identification stickers are not included, available upon request and prior to a quote.

Optimize waste management with the **h424\_131 bin**. **Request a quote now** for your recycling needs!

### Technical features:

- **External dimensions:** W. 295 x D. 295 x h. 882 mm
- **Capacity:** 10 Lt (internal bucket)
- **Material:** galvanized steel with thermosetting polyester resin powder coating
- **Lid:** soft-closing
- **Internal bucket:** plastic, 10 liters, for organic waste
- **Internal access:** front door with magnetic closure
- **Base:** integrated, with adjustable feet
- **Anchoring:** Floor standing
- **Use:** indoor environments
- **Stickers not included in the supply**, can be purchased separately upon request

### User benefits:

- **Practicality of use:** soft-closing lid for quiet and comfortable use.
- **Ease of maintenance:** easily removable plastic internal bucket for rapid emptying.
- **Durability:** galvanized steel structure with resistant coating.
- **Versatility:** modular design to create recycling stations.
- **Stability:** adjustable feet for secure positioning even on uneven surfaces.

### FAQ:

**1. Is the bin suitable for organic waste?**

Yes, thanks to the 10-liter internal plastic bucket, it is ideal for collecting organic waste.

**2. What are the features of the lid?**

The lid is equipped with a soft-closing mechanism, which ensures silence and comfort during use.

**3. Is it stable on uneven floors?**

Yes, the adjustable feet allow for stable positioning even on surfaces that are not perfectly flat.

**4. How do I clean the internal bucket?**

The internal plastic bucket can be easily removed and washed with water and neutral detergents.

**5. What is the capacity of the internal bucket?**

The internal bucket has a capacity of 10 liters, perfect for daily use.

**Mini buying guide:**

The **h424\_131 indoor recycling bin** is designed for those looking for a practical and durable solution for waste collection. Thanks to the **10-liter internal bucket** and the **soft-closing lid**, it is ideal for environments such as kitchens, offices, and canteens.

The **galvanized steel** structure ensures long life and optimal resistance. The **modular** design allows you to combine multiple containers to create customized recycling stations, while the **adjustable feet** ensure stability on every surface.
