

## Indoor recycling bin 100 lt h953\_01

100 lt recycling bin with 1.5 mm iron sheet structure and tilting door. Dimensions: W 45 x D 35.5 x h 100 cm. Lock with key and bag-holder ring.

The **h953\_01 indoor recycling bin** is designed to ensure a large waste collection capacity and high durability over time. Thanks to its **100-liter** capacity, it is the perfect solution for public environments such as offices, schools, shopping centers, and healthcare facilities. The structure is made of **1.5 mm iron sheet**, a robust and durable material, with the body joined by welding for unparalleled solidity.

This container is equipped with a **tilting front door** that facilitates the removal of the internal bag (not included) and allows for quick and practical maintenance. The **lock with key included** ensures security and prevents improper use of the bin. Inside, there is a **bag-holder ring** that keeps the bag in place, avoiding slipping and ensuring clean and efficient use.

The base is equipped with **anti-slip rubber feet** that protect the surfaces on which the container is placed, avoiding scratches or damage. The design is studied to allow easy separation of materials during disposal and recycling operations, making it a sustainable choice for waste management.

Available in **different colors** to perfectly adapt to any environment, this container combines functionality, robustness, and a professional aesthetic, making it ideal for orderly and efficient management of indoor waste. A **pictogram** is included: during the ordering phase, it is possible to choose the type of waste icon (see attached image). The pictogram consists exclusively of the waste icon, without text.

Choose the **h953\_01 recycling bin** for an efficient and long-lasting waste collection solution. **Order now** to improve the organization of public spaces with a superior quality product!

### Technical features:

- **Dimensions:** W 45 x D 35.5 x h 100 cm
