

Indoor recycling bin 2 x 16 Lt h1025_31

Steel bin with 2 compartments and pictograms included. Capacity: 2 x 16 lt. Dimensions: W 33 x D 25.5 x H 39 cm.

The **H1025_31 indoor recycling bin** is the perfect solution for **sustainable waste management in small spaces**, such as individual offices, public restrooms, hotel rooms, professional studios or home environments.

The structure is composed of a **painted steel body and cover**, resistant and easy to sanitize. Internally it houses **two 8-liter plastic containers each** (for a total of 16 lt), equipped with **convenient handles** to facilitate **emptying from the top**.

This model, despite its **compact dimensions**, maintains all the functionalities of a professional recycling station: **adhesive pictograms included**, robust structure, **elegant design** and the possibility of **color customization** to adapt to different aesthetic contexts or to identify waste streams.

Buy the **H1025_31 bin** now to manage recycling in an orderly way even in the most compact spaces! Available in various colors and ready for use.

Technical features:

- **Structure material:** Painted steel
- **Total capacity:** 16 liters (2 x 8 lt)
