

Indoor recycling bin 52 lt h953_06

52 lt indoor bin with hinged top lid and bag holder ring. Dimensions: 30 x 30 x h 73 cm.

The **h953_06 indoor recycling bin** is a robust and functional solution for managing waste collection in indoor environments

such as offices, schools, hospitals and public spaces. Made of **durable cylindrical sheet metal**, it ensures long-term durability and stability. The **hinged top lid**, attached to the body via **two hinges**, facilitates use and prevents waste from accumulating on the edge.

This model is equipped with a practical **bag holder ring suspended from the lid**, which simplifies the insertion and removal of the bag (not included in the supply), keeping it firmly in place during use. The **base welded to the body** features **drainage holes**, ensuring greater hygiene and preventing liquid stagnation. Furthermore, the **anti-scratch rubber pads** at the base protect the surface on which the bin is placed, avoiding unwanted damage or marks.

Made with **materials easily separable for subsequent recycling**, this bin complies with the **UNE-EN 13501-1 fire resistance** standard, ensuring additional safety and protection. It is available in **different colors** (see color chart) and comes with a **pictogram**, to be specified during the ordering phase by choosing from those available in the attached image. The pictogram consists exclusively of the waste icon, without text.

Improve waste management in your indoor spaces with the **h953_06 recycling bin**. Choose practicality, safety and customization. **Order today!**

Technical characteristics:

- **Dimensions:** 30 x 30 x h 73 cm
- **Capacity:** 52 lt
- **Material:** cylindrical sheet metal
- **Lid:** hinged top with two hinges
- **Bag holder ring:** included, suspended from the lid
- **Bags not included in the supply**

User benefits:

- **Ease of use:** hinged lid and bag holder ring for quick and hygienic bag changes.
- **Surface protection:** base with anti-scratch rubber pads to prevent floor damage.
- **Certified safety:** fire resistance compliant with UNE-EN 13501-1 standard.
- **Guaranteed durability:** robust sheet metal structure resistant to daily wear and tear.
- **Customizable:** possibility to choose the pictogram (from those in the attached image) according to your needs.

FAQ:

- 1. What are the bin's dimensions?**
The dimensions are 30 x 30 x h 73 cm, with a capacity of 52 liters.
- 2. How does the bag holder ring work?**
The ring is fixed to the lid and allows the bag to be held firmly, simplifying insertion and removal.
- 3. Is the bin suitable for public environments?**
Yes, it is ideal for indoor spaces such as offices, schools, hospitals and other public spaces thanks to its robustness and practicality.
- 4. Is the bin fire-resistant?**
Yes, it complies with the UNE-EN 13501-1 standard for fire resistance.
- 5. Is it possible to choose a specific color?**
Yes, the bin is available in different colors. Refer to the color chart for more details.

Buying guide:

Choosing the **h953_06 recycling bin** means opting for a functional, safe product suitable for efficient waste management in indoor environments. The **cylindrical sheet metal structure** and **hinged lid** facilitate daily use, while the **bag holder ring** ensures that the bag remains firmly fixed during use. The base with **drainage holes** and **anti-scratch rubber pads** guarantee hygiene and protection for surfaces.

Thanks to the certified **fire resistance** and the possibility to choose **dedicated colors** and **pictograms**, this model is perfect for offices, schools and public spaces where order, safety and practicality are fundamental.

Invest in a reliable and customized solution with the **h953_06 model** to improve waste separation in your spaces!
