

Indoor recycling bin 60L h86_273

60L recycling container in manganese grey steel with light grey lid RAL 9022. Dimensions: approx. W 30 x D 30 x H 89.7 cm.

The **h86_273 recycling container** is designed to ensure efficiency and practicality in waste management within indoor environments. Made of **UV-resistant powder-coated steel**, it ensures corrosion resistance and long-lasting durability.

The steel signage lid, with a **light grey RAL 9022** finish, is equipped with **calibrated openings**, specifically designed to facilitate quick and effective waste separation. Thanks to the **emptying system via lid removal**, maintenance is simplified.

The **included bracket kit** allows for secure bag fixing (bags not included), while the **base with rubber gasket** protects surfaces from scratches and ensures container stability. Ideal for offices, canteens, schools, and public spaces, it stands out for its compact design and practical waste management system.

Simplify recycling in your indoor spaces with the **h86_273 indoor container**, a practical, resistant solution with a modern design.

Technical features:

- **Material:** UV-resistant powder-coated steel
- **Body color:** Manganese grey
- **Lid color:** Light grey RAL 9022
- **Capacity:** 60 liters
- **Emptying system:** Lid removal
- **Base:** Non-slip rubber gasket
- **Bag fixing:** Bracket kit included (bags not included)
- **Dimensions:** approx. W 30 x D 30 x H 89.7 cm

User benefits:

- **Simple to use**, with a quick and intuitive emptying system.
- **High durability** thanks to the UV-resistant treatment that resists scratches and wear.
- **Compact and versatile design**, perfect for indoor spaces like offices and public areas.

- **Stability and floor protection** thanks to the rubber base.
- **Easy recycling organization** with signage lids and identification stickers.

FAQ:

1. Are bags included in the supply?

No, bags are not included, but the bracket kit ensures correct positioning.

2. How is the container emptied?

Simply lift the lid to easily access the internal bag.

3. Is it suitable for outdoor use?

It is primarily designed for indoor environments, but the UV-resistant finish offers protection against wear caused by indirect sunlight.

4. Can the lid color be customized?

This model is supplied with a light grey RAL 9022 lid, but other colors are available in the range.

Mini buying guide:

The **h86_273 recycling container** is the ideal solution for those looking for a practical, durable, and compact product for waste management in indoor environments. Thanks to its **modern design** and resistant structure, it fits perfectly in offices, schools, canteens, and public spaces. The possibility of easily identifying waste through **signage lids** and dedicated stickers ensures optimal organization of waste separation.
