FAQ:

1. **How many waste streams can it manage?**

The container is designed for the collection of 3 types of waste, thanks to the three internal compartments.

2. **Are labels included?**

Yes, 7 pre-cut colored vinyl adhesive labels are included.

3. **Can I use standard bags?**

Yes, thanks to the internal bag holders, standard collection bags can be used.

4. **Is it suitable for outdoor use?**

No, it is a product designed for indoor use, in environments such as offices, canteens, schools or halls.

5. **What are its dimensions?**

Its dimensions are W 96.5 x D 35.3 x H 72 cm.

Mini buying guide:

When choosing an indoor recycling bin, it is essential to evaluate the **number of streams, material strength and ease of use**. The H20_230 model is ideal for those who want to manage up to **three types of waste**, maintaining a polished aesthetic in public or corporate environments.

Prefer **painted galvanized steel** containers, like this one, to ensure **strength and durability**. The **presence of internal bag holder supports** makes daily management more practical and hygienic, while the **colored vinyl labels** simplify waste separation. Finally, always check that the **dimensions are compatible with the available space**, in this case **965 x 353 x 720 mm**.
