

Indoor recycling bin h424_95

Recycling station for proper waste separation. For indoor use and self-extinguishing. Capacity: 160 lt.

Indoor waste collection container, ideal for installation in offices and shopping centers. The structure is made of **galvanized steel** and is divided into **3 compartments with independent internal bins** complete with bag holders. The base is equipped with **adjustable feet** and is pre-arranged for floor anchoring (anchors not included). The lid features **3 waste insertion slots** with **identification labels** for the type of waste: it is also equipped with a **key lock** that allows it to be lifted to facilitate and make emptying operations practical.

Technical characteristics:

- Dimensions: W.89 x D.39 x h.81.5
- Material: steel
- Capacity: 160 lt
- 3 independent internal compartments with elastic for bag attachment
- Easy emptying
- Base with adjustable plastic feet
- Fixing: to be anchored (anchors not included)
- Lid with lock
- Self-extinguishing certificate
- Labels included: yellow plastic, blue paper, grey unsorted waste

***Upon request and subject to a quote, it is possible to request labels in other colors and for other types of waste*
