

Indoor recycling bin h424_97

3-compartment recycling bin. For indoor use. Capacity: 3 x 160 liters.

3-compartment waste bin for waste sorting, specific for indoor spaces such as airports, shopping malls, offices and stations. Built in **galvanized and painted steel** with **adjustable plastic feet** at the base and predisposed for ground anchoring. It features an easy and ergonomic emptying system thanks to the presence of **3 separate internal containers** that allow for quick extraction and make bag changing and cleaning operations simple. Each container is equipped with an **elastic bag holder** and a **lid with automatic closing** on which the label with the waste to be disposed of is shown.

Technical features:

- Dimensions: W.89 x D.39 x H.81.5
- Material: steel
- Capacity: 3 x 160 liters
- 3 independent internal compartments with elastic bag attachment
- Easy emptying
- Base with adjustable plastic feet
- Fixing: to be bolted (anchors not included)
- Lid with self-closing flaps
- Labels included: blue paper, green organic, yellow cans

***Upon request and subject to a quote, it is possible to request labels in other colors and for other types of waste*
