

Indoor recycling bin h86_265

Anti-UV powder-coated steel container, push/pull system and adjustable feet. Color: matte nature green. Dimensions: W 38 x D 38.4 x H 76 cm.

The **indoor recycling bin h86_265** is an elegant and functional solution for managing glass recycling in indoor environments. Made of **anti-UV powder-coated steel**, this container ensures resistance and durability over time, maintaining a modern and discreet appearance thanks to the matte finish in **nature green**.

Equipped with a **push/pull opening system**, the container offers practicality and hygiene thanks to the mechanical closure that prevents the dispersion of odors. The **bag support** is integrated on guides for easy insertion and replacement of bags.

To ensure maximum stability on any surface, the container is provided with **4 adjustable feet**, perfect for irregular floors. Furthermore, it is possible to fix it to the floor in **4 points**, offering greater security in high-traffic environments.

Thanks to the signage on the door and the calibrated opening, use is intuitive and immediate, favoring a more orderly and effective waste separation.

Simplify waste separation with the **h86_265 container**: robust, practical, and aesthetically pleasing, it is ideal for offices, schools, shopping centers and any indoor environment!
